

REMARKS

The Applicant thanks the Examiner for taking the time to speak with the Applicant on February 13 and February 14, 2006 regarding this application. The Examiner and Applicant have agreed that *Champlin* does not disclose "having access to said metadata in said first database **for translation between said first and second protocol**" as recited in the pending claims.

In this request for continued examination, Applicant takes the opportunity to submit new claims 41-43 for the Examiner's consideration. Claims 19-34 were previously withdrawn. Claims 1-18 and 35-43 are presented for examination.

In view of the foregoing amendments and remarks, the entire application is believed to be in condition for allowance, and such action is respectfully requested.

It is believed that all of the pending claims have been addressed. However, the absence of a reply to a specific rejection, issue or comment does not signify agreement with or concession of that rejection, issue or comment. In addition, because the arguments made above may not be exhaustive, there may be reasons for patentability of any or all pending claims (or other claims) that have not been expressed. Finally, nothing in this paper should be construed as an intent to concede any issue with regard to any claim, except as specifically stated in this paper, and the amendment of any claim does not necessarily signify concession of unpatentability of the claim prior to its amendment.

No fees are believed due. Please apply any charges or credits to deposit account 06-1050, referencing attorney docket no. 10559-457001.

Respectfully submitted,

Date: February 15, 2006
